district of Tripura State, The plant is capable of absorbing the entire production of pineapple in and around the factory.

As a market intervention, operation, NERAMAC procured va,rious commodities. Even though the procurement made by NERAMAC is not significant, the entry of NERAMAC in the market has enabled the farmers to get remune-v lative prices.

(b) Till 1988, the pineapple growers , in North Tripura District were getting only around 20 paise per Kg. of pineapple. Because of NERAMACs Fruit Juice Concentrate Plant having been set up, the pineapple growers are now paid at the rate of Rs. 1.20" per Kg. This has up lifted the economic condi-tion of tribal farmers. Till middle of 1985, citronella grass grower$_s$ were getting Rs. 60 per Kg. of citronella oil and they are now getting over Rs. 250 per Kg. This has been due to NERAMACs market intervention programme and has up lifted the economy of citronella growers of upper Assam. The NERAMAC also arranged to procure produce like ginger, pineapple, tezpatta, red lemon from Assam, Arunachal Pradesh, Tripura, Meghalaya, Nagaland and vegetables from Mizoram and marketed them in the termiwl markets by paying remunerative prices to the farmers.

(c) The number of fruit processing units operating in the Region is 47.

(d) The value of turn over in respect of the units is not maintained centrally. However, it may mentioned that NERA-MAC produced 215 MT concentrate valuing Rs. 75 lakhs.

(e) NERAMAC procures fruit products of small scale industries (SST) units and sells them through its retail outlets, thereby helping the SSI units.

(f) The product of NERAMAC has not been exported so far and no foreign exchange has been earned,
